

SL CONSOLE

RETHINK LED

The Integrity SL console offers both an intuitive exerciser experience combined with the level of digital connection that users have come to expect.

LED EVOLUTION

LED consoles don't have to be a commodity. Life Fitness has incorporated advancements in exerciser interaction, like Apple Watch® compatibility and Bluetooth® connection, and built them into the LED platform.

AN LED CONSOLE WITH AESTHETICS

Facilities benefit from a fresh, modern look that used to be reserved for more premium consoles. We took time to craft a console that's more aesthetically pleasing than other LEDs.

SERVICE AND MAINTENANCE MADE EASY

Facilities can set preventive maintenance metrics and be alerted with an on-console service notification. Additional features help service techs diagnose and remedy any issues.

LifeFitness

SL CONSOLE

CSAFE Port - Ease of installing CSAFE compatible devices like MYE

Sleek, modern design

Up to 22 workouts available

Quick speed and incline keys*

Integrated TV controls

Bluetooth® connection to headphones and heart rate straps.

Apple Watch® connects by tapping the lower right corner of the console

Seamlessly connect to the free-to-download LConnect app for workout tracking on and off Life Fitness equipment.

A USB port can be used to charge devices and update software. Retractable doors prevent liquid from corroding USB and headphone ports.

*Quick keys are on treadmill console only
