

Apply 1-2 drops on threads, and rotate bolt until evenly spread.

**Loctite 242 – Blue**, Medium Strength, General purpose removable grade for fasteners up to 1" diameter. Low Viscosity.

**Cybox P/N:** YA000201

**Loctite 262 – Red**, Medium/High strength, chemical resistant, service removable with heat. Medium Viscosity.

**Cybox P/N:** YA000221

**Loctite 271 – Red**, High strength, permanent locking for fasteners up to 1" dia., heat with hand tools to remove. Medium viscosity.

**Cybox P/N:** YA000205

**Loctite 680 – Green**, High strength, bonding of cylindrical fitting parts. Prevents loosening and leakage from shock and vibration, heat with hand tools to remove. Medium viscosity.

**Cybox P/N:** YA000226

**Loctite 7649** - used where increased cure speed is required.
