## Improved Jungle Gym Adjustable Cable Columns

The Adjustable Cable Columns are now equipped with swivels with 180 degrees of rotation rather than the original 90 Degrees. The results in the following product number changes:

- Adjustable Cable Column: 17092 becomes 17093
- Attached Cable Crossover: 17121 becomes 17122
- Embedded Cable Crossover: 17131 becomes 17132
- Free Standing Cable Crossover: 17111 becomes 17112

## Wider Back Pad on Olympic Benches

In an answer to popular demand we have increased the width of the back pad on the following units from 10" to 12".

- Olympic Bench Press 16010
- Olympic Incline Press 16050
- Olympic Decline Press 16063 (to be replaced by the 16064)

## Olympic Decline Press Status

The 16063 Olympic Decline Press remains in a hold status as it is being redesigned. Its successor design has nearly completed a successful testing cycle and should be moving into the Manufacturing Engineering cycle shortly. At present, it appears that production will resume in the early March time frame. We will be putting the best effort forward to bring in that time line and will keep you advised.

When the Olympic Decline press is again available, the product number will be 16064.
