- Height: 54" (137 CM)
- Weight: 390 lbs (124 KG)

Please note: All new orders should use the 16200 Hack Squat.

## Big Iron Improvements

Two improvements have gone into production on Big Iron Racks resulting in the following product number changes:

- 19000 changes to 19001 (9' Half Rack)
- 19010 changes to 19011 (8' Half Rack)
- 19020 changes to 19021 (9' Multi Rack)
- 19030 changes to 19031 (8' Multi Rack)
- 19040 changes to 19041 (9' Power Rack)
- 19050 changes to 19051 (8' Power Rack)
- 19060 changes to 19061 (9' Combo Rack)
- 19070 changes to 19071 (8' Combo Rack)

The first change is a relocation of the catch holes in the forward uprights. The holes have been moved downward approximately 3" to allow for better functionality when units are not equipped with platforms.

The second change is a reorientation of the weight storage tubes to allow bumper plates to be placed on the three lower tubes. The reorientation did however reduce the number of storage tubes from six to five.

These enhancements are in production on the 8' units and will be present on 9' units beginning with February 21 shipments.
