Jungle Gym Enhancements

The Dual and Single Handle versions of both the Lat Pull and Row have received improvements and are now shipping. These updated machines have new product numbers:

- Row 17031 > 17032
 - Dual Handle Row 17041 > 17042
 - Lat Pull 17071 > 17072
 - Dual Handle Lat Pull 17081 > 17082
-
- All four stations are now equipped with leveling glides to accommodate for floor that are not level.
 - The Lat Pulls are now taller (3") to allow tall users a complete range of motion.
 - The Dual Handle Lat Pull and Dual Handle Row now feature swiveling cable outlets to allow a greater range of movements with a smoother feel and without cable damage.
 - All Jungle Gym Stations that have direct cable attachment to the top of the weight stack (no pulley) are equipped with a revised stop that protects the guide rod caps in the event that the top plate reaches the top of the guide rods forcefully.

Big Iron Combo Rack Improvement

The Big Iron Combo Racks (19061, 19072) have been upgraded to include chin-up bars on both sides.
