June 2013

790T Introduction

As the 750T ends production, there will be a performance gap in our treadmill line. The 790T, a higher performance version of the 770T, fills this gap by offering a 15.6 mph (25 kph) top speed and a 0 – 20% incline range.

770T and 790T Comparison

	770T	790T
Speed	0.5 – 12.4 mph (0.8 – 20 kph)	0.5 – 15.6 mph (0.8 – 25 kph)
Incline	0 – 15%	0 – 20%
Workout Levels	10	15
Step Up Height	8.5 in (21.5 cm)	9.5 in (24 cm)
MSRP	\$7995	\$8495

When will the 790T be available?

Available worldwide in standard lead times beginning July 8, 2013

What options are available for the 790T?

All the same options and option pricing as the 770T

Why is the 790T one inch taller than the 770T?

The 790T is one inch taller in order to accommodate the new incline motor.

What is the warranty?

The 790T will have the same warranty as the 770T.

Does the max speed need to be set?

The default max speed for the 790T is set at 12.4 mph (20 kph) from the factory. This can be changed to 15.6 mph (25 kph) in the setup menu in the CardioTouch toolbox when the equipment is installed.

Important safety feature to note:

- The maximum speed of the 790T is limited to 6 mph (9.7 kph) if the incline is set above 15%.
- The maximum incline of the 790T is limited to 15% if the speed is above 6 mph (9.7 kph).
