Monitor Mount for Cardio Products

What cardio products will this be available on?

770 (including 790T) series and 625 series (treadmills, Arc Trainers and bikes)

When will the bracket be available?

The monitor mount is currently available.

What is the MSRP of the monitor mount?

See the current price list.

How will the monitor mount be ordered?

Order the cardio product(s) with the monitor mount option.

How will the monitor mount be shipped?

The Arc Trainer and bike mount will be installed in the console at Cybex prior to shipping to the customer. The treadmill mount will be shipped with the product but must be installed when the treadmill is setup.

What TVs are compatible with this monitor mount?

The mount will accommodate monitors that have either a VESA 75 (75mm) or a VESA 100 (100mm) center mount. The mount will support monitors that are 15.6" (diagonal) or smaller.

Is the mount angle adjustable?

The Arc Trainer and bike mount has a user adjustable mount angle. The treadmill mount angle is fixed.

What is the weight limit for add-on monitors?

15 lbs. (6.8 kg) max

Will the cardio equipment control the monitor?

No

Will any cables be included or installed?

No. The customer will be responsible for all cabling.

What is the impact to the product warranty?

The monitor mount will be covered under the standard parts section of the product warranty.
