6 ft. Treadmill Power Cord

Cyberx treadmills currently ship with an approximately 13 ft. power cord, allowing the owner to route the power cord out the front or the back of the treadmill base. Some customers have requested a shorter power cord. To address this need, a 6 ft. power cord option has been created for all 115V / 60 Hz treadmills.

Which cardio products is this applicable to?

790T, 770T, 625T and 525T (115V / 60 Hz units only)

When will it be available?

The 6 ft. power cord will be available by August 1, 2013

Which plug does this cable have?

NEMA 5-20 with angled plug

Is there a price difference?

No

How will this be ordered?

Order the treadmill with the the 6 ft. cord option.

What is the impact to the warranty?

There is no impact to the warranty. The cable will be covered under the parts section of the product warranty.

Will this be available for international treadmills?

This option is only for 115V / 60Hz treadmills.
